

Dear Mr. Jasiński,
Dear Wojciech,

As Members of the European Parliament from the Left in the European Parliament, we have heard of the impressive strike of the workers of Solaris Bus & Coach plant in Bolechowo. We wish to express all our solidarity and support for your struggle for fair and higher salaries.

Your strike and massive mobilisation at Solaris is an example and a source of inspiration for workers all around Europe.

Throughout Europe, the peak of energy prices, inflation and increasing cost of living hits workers hard. While companies like Solaris are registering record profits, and top executives reward themselves lavishly, workers are not receiving the wages they deserve.

Workers create the wealth. To refuse workers with your experience a decent salary increase is outrageous. We stand by you in your fight for the salaries and working conditions you deserve.

Please receive all our solidarity,
